

# Brief interventions for alcohol problems

## Questionnaire on the implementation status in different settings

---

### INTRODUCTION

The aim of this questionnaire is to describe the current implementation status of brief interventions for alcohol problems in different settings (Primary health care, work-place health services, emergency care and social services) at a member state level in European Union.

---

---

## Instructions to complete the questionnaire

---

- It is preferable that you **complete the questionnaire electronically** (as a word document).
  - **Text boxes:** Just place the cursor in the text box and type. (Pressing the tab key moves you from box to box). You can also cut text from other documents & paste them into the text boxes. There are no limits to the size of the text boxes.
  - **Check boxes:** Just place the cursor in the check box that you want to mark and left click the mouse. If you want to correct the check box, just left click the mouse again.
-

## A. Personal Information

### 1. Please provide us with your contact details

Name			
Organisation			
Email		Telephone	

### 2. For which country you are answering?

Country	
---------	--

**If you are not able to answer for a country as a whole, you have the possibility to complete the questionnaire for a specific region. Please indicate the region:**

Region	
--------	--

**Please note:** If you are completing the questionnaire for a specific region, please ensure that **ALL** your answers apply for this region!

**Further information resources**

Please list any publications (scientific paper, reports, guidelines, protocols etc.) on this topic
