Work package specifications

Specification	
Starting date (project month)	0
Ending date (project months)	12
Associated partners	All
Collaborating partners	INEBRIA, PHEPA, AMPHORA, ODHIN, EWA, WHO

Description of the work

- To produce a document for providers and commissioners of primary care services (primary health care, social services, emergency departments and workplace health services) about what to do, for whom, when and where for the delivery of brief advice for people with AUDs

Action

- With WP4, identify and collect source material:
- Scientific literature
- Grey literature
- Country and international guidance
- From source material synthesize guidance
- Guidance document short, simple and practical, also listing uncertainties where they exist
- Guidance document context specific (e.g. economic crises, windows of opportunities, joined up actions etc)

Methods

- Outputs from WP4
- Contact with experts
- Trawl project sites
- Contact known countries and international organizations
- Frame within contexts as above
